7 December 1967

25X1

MEMORANDUM FOR: Chief, Support Staff, NPIC

ATTENTION : Chief, Logistics Branch, SS

SUBJECT : Receipt of Equipment Under Contract [REDACTED]

25X1

1. The subject contract [REDACTED] is for the design, fabrication and delivery of three Advanced Light Tables.

25X1

2. The first Advanced Light Table, Model [REDACTED] (The Tilt Top Model), has been delivered to NPIC and after extensive testing and evaluation, it has been determined that this instrument is acceptable.

25X1

3. The second instrument, Model [REDACTED] (The 9 X 40 Version with Translating Microscope Carriage) has been received at NPIC and has been found to be unacceptable; however, because the subject contract is a cost type and the Contractor has expended all the originally authorized funding (the contract is in the process of being terminated), the instrument will not be returned to the Contractor for rework. Therefore, under these conditions, Model [REDACTED] must be considered received and accepted.

25X1

4. The last instrument, Model [REDACTED] (The 9 X 40 Version with Tracking Light Sources) remains at the Contractor's facility--the Contract Settlement Section CA&SE/PD/OL has requested immediate shipment of this instrument. Therefore, this last light table is neither received nor accepted.

25X1

5. The above should clarify the status and location of the equipment developed under the subject contract.

25X1

Distribution:

- Orig & 1 - Addressee
- 2 - NPIC/A/TD
- 3 - NPIC/TD/DS
